The Times editor has enjoyed a letter the past week from Dr. J. F. Clark, of Perryville, written from Western, Conn., under date of Sept. 7th. For the past two months Dr. and Mrs. Clark have been visiting relatives and friends in the country where they were reared. Quoting from the letter: "The Times has been coming to me regularly here, but we are now starting back to Missouri, so please change address to our home. I have been glad to be able to keep in touch with things in my old territory while we have been so far away. We have had two months of the finest time possible. Have been spending most of my time here in Connecticut, seeing country that was old when the Revolution was fought, traveling to New York once in a while and enjoying the salt water baths at the beach here. This country is so different in appearance from St. Francois and Perry counties. There are not many large farms along the shore of the Sound, mostly small trust farms, or else the land has been used for building purposes. Have had a very fine time, but you can be sure we will be glad to get back to old Missouri again."

MRS. M. L. BOUGHTY

Mary friends in this city of Mrs. M. L. Boughty were surprised and grieved yesterday morning on learning of her death, which occurred at 11 o'clock Wednesday night, at her home in Chicago. Death was the result of an operation for appendicitis, which was performed Sept. 4th. Deceased was about 68 years old, and had lived in Chicago for several years.

Capt. D. J. Boughty, of this city, was called up on long distance immediately after death came and informed of the shocking news. Mrs. Boughty spent practically all her active and useful life in this community, where she was loved and honored by everyone. Her maiden name was Hopkins, she being eleven children in the family, the youngest of whom is 77 years, and she is the first to pass to the Great Beyond.

The remains will arrive in this city at noon to-day, and the funeral services will be held at the M. E. Church.

MRS. GALE'S ROOM HAS PARENT-TEACHER BANNER FOR MONTH

The Parent-Teacher Association held its first meeting for the school year 1921-22, at the high school, Friday afternoon, Sept. 9th, at 3:15 o'clock. A representative body of mothers and patrons attended the meeting, and manifested great interest in the plans for the year's work.

After the opening prayer, the roll was called, so that each child whose mother was present at the meeting might have a star placed to its name in the room to which it belongs.

As an additional incentive for attendance at these meetings, the Association has provided a banner, which is to be displayed each month in the room which has the largest number of mothers present at the preceding meeting.

In opening the year's work, the President reviewed briefly the matters of vital importance to the schools which the association has already accomplished, and urged the women to take for their motto during the current year, this thought: "To be the voice of the past; to prevent is the divine whispering of today."

In speaking further of the future of the organization, she impressed upon the women that they must feel a responsibility for the health and morals of the child, especially in the new relationship to children outside her own home. These must be the chief concern of every mother in the community—"they are the bricks with which we build tomorrow."

The wrongs to children committed by those who think they are most devoted to children were spoken of, the only child who is allowed no companionship with others of his own age, the pampered child, the precocious child who is pushed forward on every occasion, the child who is made to believe that he is right and the teacher is wrong—these children are as truly wronged as the neglected child who is a charge on the community.

It is the duty of every parent to know more about the school which has charge of his children, to many hours of the day, and it devolves upon the mother to secure the best possible health conditions for her children. This is especially important in view of the fact that at the present time the government is paying for present armaments and past wars 22.8 per cent of the national funds and for education only 1.8 of 1 per cent.

Improved sanitary conditions, a music supervisor, recess for the grade rooms in the high school building, and the weighing and measuring of the children are a few of the things the Association has already accomplished; the coming year has many new projects that will take the time and attention of every mother interested in the welfare of their children's physical training for all grades, that even those who do not make the time may have the opportunity of development; something to be done for the left out child in the way of supervised playgrounds; looking to the future, that the grades in the high school building may have a school of their own, not only that they may have a school of their own, but that the moral tone of the grades may be protected, simple dress for the high school girl—where this has been carried out, it has been found that the school spirit of the girls has been improved 50 per cent; a mission in the basement; window boxes for the school windows; and some other things.

By a unanimous vote the date of the meeting was changed to the first Wednesday of the month. Notice of the meeting will be given as usual. The coats of the mothers present showed that the greatest number had children in Mrs. Gale's room, the third grade in the Washington school, so the ladies will meet next month for the month of the next meeting.

Mothers and fathers and every one interested in the schools are invited to be present at these meetings and to take part in the discussion of the subjects that are brought forward.

If confidence is the only thing on which we can rely, St. Francois county should now begin work with that end in view. It will prove to be the greatest possible economy.

SEEING IS BELIEVING

Soon, everyone has a few personal friends who can be made to believe in a merchant, when he isn't even a good stockkeeper, but there are thousands of people who would be reminded all the time that he was in the game regularly if he carried an ad in The Times.

Seeing is believing and more than ever so since old man Volstead took a shot at it. And when a man sees, he has to believe.

Where do you stand on the question? Do you keep your lights so hidden that only the parabel shows? You have heard of the man who wouldn't let loose of a dime until he saw the milled edges of two dollars. "You ain't it?" Do you want The Times to guarantee the results? Come in and talk it over.

DIDN'T NEED THE REST

A young man living near here hired out to work in the fields. The boss went out in the afternoon of the first day to see how the boy was making it. He found him lying in the shade of a tree, smoking a cigarette. "Tired?" asked the boss. "Nope!" answered the young man. "Hain't done nothin' to make me tired. 'Just a layin' here' waitin' for quittin' time so I can come to supper." For the past two years a great many young and old men have tried to earn a living that same way.
